Ashley's 2001 Toyota Solara

Ashley Delzio's 2001 Toyota Solara

Out of all the vehicles we looked at in her price range this was the best one.

This is Ashley's first car.
It was a long night of test driving vehicles in her price range, the Solara was a couple of grand more than what we were interested in paying but because of the good condition and low mileage we decided to purchase. It was also the best driving vehicle with no visual or known problems

The drive home from the dealership was victorious because the two other couples there that night & they were interested in this same vehicle... and we ended up getting it.

Ashley plans on showing the vehicle at car shows... as a Lake Cities Misfit....
Ashley had the windows Tinted since the purchase. No other modifcations...
